

2024 Ski & Learn Schedule and Speakers

FRIDAY, MARCH 22, 2024 7:30 AM - 9:30 AM (MT)

Dr. Richard Sullivan

In-Person Keynote Presentation

“Digital Implant Workflows from Singles to Full Arch”

Course Description: This course will focus on different digital workflows to maximize clinical excellence and case acceptance in implant dentistry. Leveraging 3D printing we can now get started faster and take on more complex cases. The latest digital workflows in full arch dentistry allow us to start delivering care to a population that before now couldn't afford or get access to this type of dentistry.

Learning Objectives:

- Learn about 3D Printing Surgical Guides in Office
- Digital restorative techniques
- 3D Printing final full arch restorations

FRIDAY, MARCH 22, 2024 4:30 PM - 6:30 PM (MT)

Dr. Richard Sullivan

In-Person Keynote Presentation

“Four Keys to Being a Successful Dentist!”

Course Description: It's harder and harder to be a successful dentist in the current economic climate. During this lecture the four keys to being a successful dentist will be looked at from Leadership and Case Acceptance, Implementation of technology to deliver higher quality care, increasing your clinical skill set, all the way to creating brand awareness around what it is that you do. Let's level up in 2024.

Learning Objectives:

- Discuss the clinical skills our Practice needs
- How do we implement and leverage technology
- Why Leadership leads everything.

2024 Ski & Learn Schedule and Speakers

SATURDAY, MARCH 23, 2024 7:30 AM - 9:30 AM (MT)

Dr. Lauren Rainey

In- Person Virtual Presentation

(Attendees must be present to obtain CE. No attendee zoom link is available)

Sponsored by Catapult Education

“Better, Faster, Stronger: Tips to Up Your Game in Direct Restorative”

Course Description: Direct restorative isn't always the most glamorous part of a general dentist's day - but it can put a spring in your step if you're able to produce restorations that are harder, better, faster & stronger predictably. We'll talk about common pitfalls of direct restorative including stained margins, chipped marginal ridges and point contacts and how to avoid those before they happen! Tissue management, heated composite and matrix selection will be discussed in depth, using case-based examples to support literature available.

Learning Objectives:

- Why tissue management is important, and not just for impressions or scans
- Re-evaluating your preparation design, thinking beyond the box and prepping for your materials
- Review of real-life clinical scenarios with time for Q&A

SATURDAY, MARCH 23, 2024 4:30 PM - 6:30 PM (MT)

Dr. Richard Lipscomb

In-Person Presentation

Sponsored by Catapult Education

“Clinical Techniques and Materials They Don’t Teach in Dental School”

Course Description: Dental school, which equips you with the basics, is the beginning of your journey toward practicing dentistry. Continued learning and much growth as a dental provider occur after dental school. This course will have an open discussion about some of the techniques and materials that are used routinely and yet are beyond the scope of dental school.

Learning Objectives:

- Exposure to the latest materials
- Exposure to techniques not taught in dental school
- Discuss the importance of organized dentistry
- Understanding how important patient perception can be

2024 Ski & Learn Schedule and Speakers

SUNDAY, MARCH 24, 2024 7:30 AM - 9:30 AM (MT)

Dr. Michael Edwards

Zoom Presentation

“A Review of Procedural Sedation in Dentistry”

Course Description: This course will use a case-based presentation pointing out the important factors of delivering sedation services in a safe manner. Assessment, administration, management of the patient, documentation, monitoring, and safe discharge will be discussed, involving the entire dental team.

Learning Objectives:

- Recognize the ADA educational requirements for the various levels of sedation.
- List the different sedation techniques available to the trained dentist.
- Discuss the advantages and disadvantages of each of the sedation techniques.

SUNDAY, MARCH 24 4:30 PM - 6:30 PM (MT)

Dr. R. Parrish King

Zoom Presentation

“Implant restorations: A discussion on all areas of fixed implant prosthetics, from single units to full arch zirconia”

Course Description:

In the world of implants the restoring dentist likely has the greatest challenges. Not just from the initial consult but managing the implant restoration throughout the life of the patient in their practice. It may start with a simple question of what implant is this? But quickly moves to do we have an impression copin? Do I need to order an abutment? What is the occlusal setup we want to have? What material do we want to utilize? How do we handle this interproximal space that opened years after the tooth was restored?

Learning Objectives:

- Identify and discuss topics such as screw retained vs cement retained restorations.
- Broken abutments, broken screws,
- Zirconia prosthetics direct to MUA, and more.

2024 Ski & Learn Schedule and Speakers

MONDAY, March 25, 2024 7:30 AM - 9:30 AM (MT)

Dr. Suzanne Ebert

Zoom Presentation

Sponsored by ADA Practice Transitions

“What’s Next? Planning for the Dental Career of Your Dreams”

Course Description: In this session Dr. Suzanne Ebert, Vice President, Dental Professional Career Services at the American Dental Association, will walk with you as you create a game plan to propel your career forward. This insightful presentation will provide you with the knowledge and strategies needed to make informed decisions and take proactive steps towards achieving your personal and professional goals. From dental student to professional, leadership, and through to retirement, you will leave this session with the secrets to paving your way to a fulfilling and rewarding dental career.

MONDAY, March 25, 2024 4:30 PM - 6:30 PM (MT)

Ms. Kathy Mann

Zoom Presentation

Sponsored by Holloway Credit Solutions

“Your Collection Policy: A Loss Prevention Measure”

Course Description: Design your collection policy as a loss prevention measure. This course will help you determine if a past due account is legal and enforceable. Valid debt begins when the patient walks in the front door – it’s the first line of defense. Your collection agency/attorney is dependent on the information, identification, and documentation you provide. Bankruptcy can be a nightmare – learn procedures to ensure you do not violate the Federal Bankruptcy stay which protects the patient/debtor.

Learning Objectives:

- Front desk process/ new patients/ consent forms
- Collecting/ filing/ reporting/ financial agreements
- Federal and State laws
